

## Science-

can changes we make, improve our natural environment?

Flowers	Number of Flowers
Rose	
Marigold	
Tulip	
Sunflower	

Key: Use  = 4 flowers,  = 2 flowers

Using pictograms we will record the variety of plants, following 'No Mow May'.

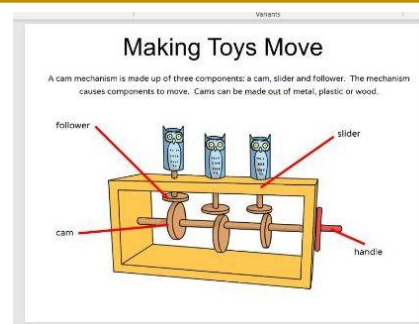

## History-Key Questions

This is the term where we look back on the History topics we have already studied.

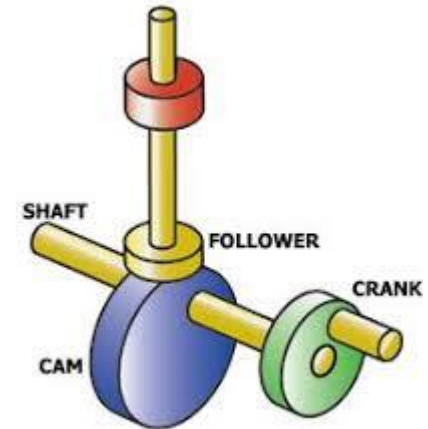

- What are the 3 periods of the Stone Age?
- What changed in the Neolithic era?
- Which country had the Shang Dynasty?
- What were Oracle Bones?
- What changed in Britain after the Romans invaded?
- Who was Boudica and why was she important?
- What is the difference between primary and secondary evidence?

## D & T - Vocabulary

<b>Cam Mechanism</b>	A cam is a mechanical device that converts rotary motion into linear motion.
<b>Cam</b>	This is the part that rotates - it can be different shapes, but looks a little like a wheel.
<b>Follower</b>	This is the vertical shaft. It makes contact with the cam and as the cam rotates, it pushes the follower.
<b>Axle / shaft</b>	This is the horizontal shaft which holds the cam in place.
<b>Crank / handle</b>	Another name for the handle which turns the cam.
<b>Slider</b>	This helps the follower move more smoothly.

## D & T Cam Toys

## Geography

The 8 point compass helps us to be more accurate when describing location and direction.
