

Maths

This term we will return our focus to shapes. We will remember our prior knowledge of 2D and 3D shapes and refine it by learning to measure and draw with far more accuracy.

We will learn about angles- acute 90 degrees and obtuse - and match these statements to everyday objects and drawings.

We will also be learning how to represent data through pictograms and bar graphs and using these skills in our science work. Alongside all this, we will be practising our calculation methods, and our times-tables recall. Keep going with your TTRS and athletics. It's all great practice!

P.E. This term it's all about Sport's Day. Look out for our dance, and enjoy the events as we strive to be the best athletes we can be.

Computing We are learning how to present information in a PowerPoint.

Science

Whilst we have completed the knowledge areas of science already, we will be recapping and consolidating some, whilst using our data handling skills to record what we find, accurately.

Our garden will be an important part of our studies.

D&T

This is our 'big' subject this term as we make a cam toy, based on an endangered animal of our choice.

We will help each other construct a cardboard frame, cut wooden dowel, and assemble the parts needed to make our animal move. We hope to have these ready to show parents soon.

Puma Class

We All Make a Difference Summer 2

P.S.H.C.E

This term the children will be focusing on their changing bodies. We will begin to learn about puberty and how boys' and girls' bodies change over the next few years. There may be questions at home from the children, based on what we discuss.

English

This term we are bringing everything together which we have learned this year. We will continue to practice our spellings and handwriting in daily sessions, so this becomes more automatic and our focus can be more centred on the content of our writing, rather than the skills needed to write.

We will be looking at a range of texts around the theme of looking after the world, such as 'The boy who grew a forest' and Greta Thunberg's first important speech. Our non-chronological writing will be based on natural disasters, chosen by each child. We will be completing more independent writing as we 'show off' our skills.

Music Samba with Sergio and Reach for the Stars!

RE -Islam Does completing a pilgrimage make a person a better Muslim?

Upcoming Events

We have a trip to the Earth Trust where we will be finding out all about sustainability.

Y3 Assembly- we also have a parent assembly where we will be showing off our learning and hopefully raising money to sponsor an endangered animal.
